50 CENTS PER MONTH

THREE ARE NEAR DEATH IN AUTO AND ELECTRIC CAR CRASH

Woman and Child Pitched
From Machine When Hit
On West Fourth

**ALL ESCAPE WITH
MINOR INJURIES**

Automobile Struck Broad-
side By Car and Badly
Wrecked

Mr. and Mrs. Ed. Lofland and their 13-year-old daughter, Elma, had a narrow escape from death or serious injury last night about 9:30 o'clock when at a crossing of the tracks on West Fourth street at a dark alley near Olive street, the automobile in which they were riding was hit by an electric car.

Lofland, who is one of the rural mail carriers, was driving his automobile, his destination being the home of A. B. Paul at 1028 West Fourth street. As the Lofland family resides at 1139 West Fifth street, Lofland made use of the alley for the short distance.

As he emerged in the darkness on to Fourth street, without warning the machine was struck by an incoming electric car from Los Angeles and Mrs. Lofland and the little girl were pitched out of the car. The former was cut about the head and badly bruised, while the child was bruised but not otherwise injured unless it develops that she was hurt internally. Lofland was not thrown from the machine. He suffered minor lacerations about the face and head. The injured trio were taken to the home of A. B. Paul, as the accident occurred in front of their home. The Lofland family is related to Mrs. Henry Moerser and her daughter, Mrs. Ralph Paul.

The motorman of the car stopped quickly and the passengers rendered aid. The automobile was badly wrecked.

TEN KILLED IN CHASE OF BANDITS WHO ROBBED TRAIN

BROWNSVILLE, Texas, Oct. 20.—Ten Mexicans were killed by possees yesterday because of their alleged complicity in wrecking of a St. Louis, Brownsville and Mexico passenger train and the slaying of three Americans and the wounding of four others.

The first Mexican killed was an unidentified young man, a passenger on the wrecked train, who was accused of revealing the hiding place of Dr. F. S. McCain, deputy state health officer here, who took refuge in the lavatory of the car when the bandits began firing. Sheriff W. T. Vane of Brownsville denied reports of this Mexican's death, but it developed that posses killed the man after the sheriff had left the scene of the wreck.

Probably 1500 cavalymen and infantrymen joined in searching for traces of the bandits for a distance of thirty miles up the American side of the river. Hundreds of civilians led by scores of deputies joined in this work.

Civil and military authorities did not agree on whether any of the bandits in the robbery had crossed from the American side of the river. Luis de La Rosa, whom two passengers claimed they recognized as among the robbers, has several times been seen in Matamoros, and American army officers had asked for his arrest by Carranza officials.

The death of Dr. McCain late yesterday was the third to result from the wreck. As deputy state health officer here, he was widely known and his death aggravated the feeling among Americans more than any previous incident in the three months of border disturbances.

NEW YORK, Oct. 20.—The vote of the wireless operators of the Atlantic coast on the question of a general strike was announced last night as 5 to 1 in favor of a strike.

"The wireless operators," he said, "are much elated over a decision to the effect that striking does not forfeit the license of a wireless operator."

LONG BEACH, Oct. 20.—Miss Melissa F. Johnson, aged 50, an insomniac sufferer, left a note on her dresser, saying she was unable to sleep, and planned an early morning dip. Her mother, Mrs. Emily Johnson, believes that heart failure was the cause of death.

SAN FRANCISCO, Oct. 20.—C. W. Foote, formerly a West Coast life insurance salesman, shot and fatally wounded his wife and then committed suicide. The tragedy occurred at the Hotel Oakwood. Foote had been drinking heavily, according to the police.

The couple, while in bed, quarreled. In a rage Foote drew a pistol from beneath his pillow and shot his wife in the abdomen, and then shot himself in the head.

CALIFORNIA GOLD WOMAN BEHEADS GIVEN WILSON FOR WEDDING RING Cripple, THEN HACKS UP CORPSE

WASHINGTON, Oct. 20.—Two pretty 18-year-old California girls, Doris and Esther Bull, presented to President Wilson today a bar of gold for a wedding ring and a bouquet of orange blossoms. They were delayed a long time powdering their noses and arranging their hats.

The appointment was for 10 o'clock, and they were fifteen minutes late. A long line waiting to see the President was annoyed by the delay. The girls told an irate doorkeeper they were late because they had to fix their hats.

"The young ladies invited Wilson to visit California. He replied, 'There never has been a time when I had to be urged to visit California. It has been merely a question of finding time to go.'"

CORVALLIS, Ore., Oct. 20.—The advantage of mothers' pensions, established in Oregon several years ago, were to be detailed here today by Mrs. R. E. Bondurant of Portland for the Oregon Congress of Mothers and Parent-Teacher Associations. Children formerly sent to charitable institutions are kept at home by mothers, aided by monthly allowances, she said.

Juvenile Judge J. J. Cleeton of Portland planned to tell the delegates that the foundation of child character is through moral conscience. This should be appealed to, he said.

MORE MACHINES ARE NEEDED FOR FARMERS SPECIAL

Secretary Metzgar of the Chamber of Commerce is beginning to worry. On Friday morning 150 people will arrive here on the Santa Fe's Farmers' Special for a trip around the county in automobiles. Metzgar has had several automobiles promised for the occasion, but he needs a whole lot more. He wants any person who is willing to give the use of his machine for half day for the general good of the county to let him know by telephone at once.

MASONS WILL BUILD HOME AT COVINA

SAN FRANCISCO, Oct. 20.—The Masonic Grand Lodge of California has approved a trade of the San Gabriel Orphans' Home property in Los Angeles county for a tract of fifty acres at Covina, twenty miles from Los Angeles.

Temporary buildings are to be erected on the new site and next year construction will be commenced on a fireproof modern home. The site of San Gabriel was unsuited to the purposes, while the buildings were frame and old. The subordinate lodge levy for building purposes a tax of fifty cents on their members and through this means the financing of the new home at Covina is possible without delay.

COURT HOLDS BABY HAS RIGHT TO CRY

NEW YORK, Oct. 20.—Baby has a right to cry, and all the landlords, tenants and even the courts haven't the power to stop him. This was judicially determined today in municipal court when Justice Young decided against tenants who had complained of lusty-lunged David Eisenberg, twenty months old.

The court ruled that the crying is not sufficient to warrant eviction of the parents.

SAN FRANCISCO, Oct. 20.—Mrs. Mary Tamias, wife of a United Railroads motorman, confessed this morning that she killed Michael Weinstein, aged twenty-three, a cripple, with a hatchet.

The murder occurred in her flat last night. She declared that the cripple madly loved her, and that he went to her house last night and demanded that she elope. She refused, when he became infuriated and attacked her.

A struggle followed, but she escaped and fled. Weinstein pursued her, waving his crutch. The woman then grabbed a hatchet. Weinstein fled, but stumbled and fell. The woman hacked off his head, dismembered the corpse, and hid the mangled remains in a box chest.

She then fled and reached a lodging house room. Later she told her husband, and on his advice decided to surrender and confess.

STATE WILL SAVE IN BUYING SUPPLIES

SACRAMENTO, Oct. 20.—The new plan of buying at wholesale will save the state thousands of dollars during the coming year, board of control officers said today on completing the tabulation of bids made recently for furnishing beans, dried fruits, flour and tea to the various state institutions for the coming nine months.

With the exception of the price of beans, all prices submitted were lower than the "before the war" prices. The state will buy 20,000 barrels of flour at \$4.99 a barrel. Last July flour cost the state \$5.25 a barrel. There is a reduction also in the price of dried fruits, but beans are costing about three-fourths of a cent a pound more.

The state officials are inclined to believe there is a particularly great demand for beans in the trenches.

**WILL TAKE STEPS TO
AVOID HANGING ORGY**
SPRINGFIELD, Ill., Oct. 20.—Rather than permit another public hanging at Murphysboro, Ill., next Friday, it has become known, Governor Dunne will relieve or possibly commute to life imprisonment the sentence of Elston Scott, a negro convicted of murdering his sister-in-law.

Last Friday Joe Deberry, a negro, was hanged at Murphysboro in the presence of 1000 spectators. The town made a gala event of the hanging.

In a message to the sheriff Governor Dunne characterized the hanging of Deberry as a disgrace and scandal to the state.

THE two Ferdinands, czar of Bulgaria and king of Roumania, are literally facing each other in another crisis which may mean the extinction of the kingdom of one or the other. Constantine of Greece is in a similar position. He is shown here to be the kind of a strong man who could overrule premier and parliament as he has just done. He and his queen, a sister of the kaiser of Germany, lean strongly to Germany. Premier Venizelos, just forced out of office, and the parliament are for the allies.

EMBARGO PLACED ON MUNITIONS FOR MEXICAN REBELS

WASHINGTON, Oct. 20.—President Wilson today signed the embargo proclamation forbidding the exportation of munitions to Carranza's Mexican enemies. In a letter to Secretary McAdoo, regarding the enforcement of the embargo, the President said: "I have found that there exist in Mexico conditions of domestic violence, promoted by the use of firearms and munitions of war procured from the United States. I hereby admonish all citizens of the United States and every person to abstain from any violation of the joint resolution of Congress, and hereby warn them that violations will be vigorously prosecuted."

TIA JUANA TRACK REFUSES TO QUIT

SAN DIEGO, Oct. 20.—Declaring that his company holds three concessions for its Tia Juana race track having the approval of the Mexican supreme court, H. A. Houser, president of the Baja California investment company, declared today that work will be continued on the track at Tia Juana. Houser asserted that his Washington attorneys have held all contracts between the de facto government and foreigners.

Houser denied any connection with Tia Juana gambling houses and said he was merely building a race track, which would have the backing of coast sport lovers. Houser said that Geo. Winfield, the Nevada millionaire and Charles Clark of San Mateo were expected to assume offices in the company.

Many wealthy men are already interested, he said. Further, word from Carranza is anxiously awaited.

AUSTRIANS CONCEDE RUSSIAN GAINS

VIENNA, Oct. 20.—The Austrian official statement today admitted Russian gains, but also claimed progress. It stated the Russian attacks north-west of Derezo and north of Rafalvka had been repulsed. Isolated Russian attacks have gained territory around the west bank of the Styra. On the Italian front, it is said, the enemy has failed heavily. In the Serbian campaign the Austrians have captured the heights southeast of Obrenovac and stormed Gipsy Mountain.

MORE ITALIANS ARE CALLED TO COLORS

ROME, Oct. 20.—Italy has called to the colors four more classes of reserves, completing her mobilization. No official explanation has been given. It is rumored the additional troops are intended for Balkan service. The reports are strengthened by the official admission that more troops are needed on the Austrian frontier.

FRENCH WAR OFFICE CLAIMS GAINS

PARIS, Oct. 20.—The War Office statement today summarized the week's events. It declared the Germans lost 8000 men on the Loos and Souchez battlefields. The German efforts in the Champagne region resulted in French victories and a consolidation of the French positions, it is claimed.

JOHN DOE IN BAD; PABLO REAL IS LUCKY

Last night was a hard one for John Doe, but a lucky one for Pablo Real. Twice during the evening John was found on the streets by Marshal Jernigan in a condition of over-excitation from alcoholic stimulants, and in each case was incarcerated in the city bastille. Also, in each case John's nativity was so unmistakably Mexican that he might easily have been mistaken for Pablo. This morning John appeared in duplicate before Recorder Willson and received twin sentences of five days "on the Hill."

CARSON VISITS KING

LONDON, Oct. 20.—Sir Edward Carson, who recently resigned as attorney general, visited the King at Buckingham Palace today. They probably discussed the possible reconstruction of the British cabinet.

RETAIN TARIFF ON SUGAR IS PLAN OF WILSON

WASHINGTON, Oct. 20.—President Wilson has practically completed the revenue program which he will lay before the majority members of the ways and means committee when they meet here in November for a preliminary conference.

The president, it was authoritatively stated today, intends to co-operate with Representative Kitchen, the majority leader of the house, and his colleagues to the fullest possible extent and if serious opposition to his present plans develop in the ways and means committee he will make every effort to reach an agreement.

The president is hopeful, however, that the proposition as it now stands will meet with the hearty approval of the house leaders. The program embodies:

1. The enactment of the emergency revenue laws.
2. The repeal of that provision of the sugar schedule which would place sugar on the free list May 1.
3. The issuance of bonds to meet the increases in the army and navy appropriations.
4. The enactment of the anti-dumping clause of the Underwood act, which was reported favorably by the ways and means committee at the last session of congress but was stricken from the measure by a viva voce vote of the house.

The president still has under consideration the levy of a small duty on wool for revenue purposes. An interesting phase of the president's program as it now stands is a provision for the enactment of a dumping duty. A provision of the Underwood bill covering this probably will be given approval.

NEW OUTLET IS PORTO RICO'S ONLY HOPE

MOHONK LAKE, N. Y., Oct. 20.—The poverty, the sorrow, the misery that is Porto Rico's, and what America and Americans can do to save the little country from itself, were outlined by Governor Arthur Yager at the thirty-third three-day Lake Mohonk conference which began this morning.

Representative citizens and officials of governments by hundreds are here to discuss Indian, Porto Rican, Philippine and other "dependent people's" affairs. Governor Yager said in part: "There is much wretchedness and poverty among the masses of Porto Rico. Their dwellings are made of hovel, almost devoid of furniture and crowded beyond belief. Their food consists of rice, codfish and beans, supplemented by the native wild fruits.

"Their wages are barely sufficient to maintain their existence under these miserable conditions. These conditions have prevailed in Porto Rico for a great many years. While much has been done to improve the island since the American occupation, it has not been possible to make marked improvement. The fundamental cause is the enormous population, 1,200,000 people.

"The present population is about 350 to the square mile. There are only two or three small states that have more people per square mile, Massachusetts, Rhode Island and New Jersey. The area of the island is about four-fifths mountainous, much of it so steep that it can hardly be cultivated at all. Yet this population is so evenly distributed over its whole surface that the center of population is only about five miles distant in a straight line from the geographical center of the island. The population is steadily increasing.

"The production and export of coffee remains about the same as in Spanish times. The output of the sugar industry has been multiplied by six. The export of tobacco, cigars, etc., has been increased more than nine times.

"The people of Porto Rico are a kindly, charitable, lovable people. The devotion of parents to their children, is equal to that shown among the

GIRLS! HAVE WAVY, THICK, GLOSSY HAIR FREE FROM DANDRUFF

Save Your Hair! Double Its Beauty in a Few Moments—Try This!

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots flunish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?—Advertisement.

people of any land. But owing to their racial characteristics, and perhaps to the tropical climate, those checks upon population which in colder climates seem adequate to keep the increase of the people well within the limits of subsistence seem lacking among them.

The only effective remedy is the transfer of large numbers of Porto Ricans to some other region. There is one country only hopelessly open to a movement of Porto Ricans, and that is Santo Domingo.

"I believe it to be the duty of the United States to make arrangements necessary to make it possible that these two neighboring islands over which it has assumed a certain control, should supplement each other's needs in respect to population."

NORTHERN ORANGE DISTRICTS ACTIVE

Lindsay, Tulare County, First To Reserve Space For Orange Show

SAN BERNARDINO, Oct. 20.—Back from a tour through the citrus fruit regions of central California, E. M. Renfro, general manager of the Sixth National Orange Show, declares Southern California growers must be prepared for the keenest of competition if they are to succeed in recovering from the districts to the north the world honors in the citrus fruit industry.

Lindsay, Tulare county, won the sweepstake prize for oranges, in the last exposition, and has made its reservation for a far greater display at the Sixth National Orange Show February 17-24 next year. While Mr. Renfro was inspecting the big Lindsay district, the space reservation for both an art feature and quality display was made.

During the season just past Lindsay grew the best oranges in the world, the orange show judges ruled. "The crop conditions are fine throughout the central California districts," said Mr. Renfro. "There is interest at Lindsay, Porterville, Exeter and Strathmore in the Orange Show plans for February, and there are indications that there will be substantial displays from the north. There is a vast new acreage coming into bearing and the growers are realizing the importance of advertising the fruit to extend the markets." The detailed plans for the next Orange Show are practically completed.

LAW PROPOSES TO GIVE CLEAR ROAD TO ENGINE

Fullerton Tribune: Ordinance No. 178 had its first reading at the regular meeting of the city trustees held at the city hall Monday afternoon. Its object is to provide a clear right of way for the fire engine when called out. Autos and other vehicles must turn out to the right when they meet the fire engine, and those who follow it to the fire must keep well in the rear, so as not to interfere.

W. E. Morgan will act as traffic officer at the Spadra and Commonwealth crossing on Saturdays and Sundays.

Contract with Dreyer & Thompson for a rest room in their garage was approved and the president and clerk were directed to affix their official signatures to same.

Marshall French will watch for the next appearance here of a Los Angeles bakery agent who has been soliciting business in Fullerton without getting a city license, according to information given the marshal by the police committee.

JERSEY WOMEN CLAIM FRAUD, TO CONTEST

NEWARK, N. J., Oct. 20.—The voters of New Jersey defeated the woman suffrage amendment to the state constitution at a special election yesterday by a majority estimated at between 50,000 and 60,000.

The refusal of the men of New Jersey to share with women the responsibility of governmental affairs, it is believed, will have a far-reaching influence on equal suffrage campaigns now being carried on in New York, Massachusetts and Pennsylvania.

The woman suffragists of New Jersey, one of the thirteen original states, who had made a fight in a campaign that attracted much attention the country over, were greatly disappointed over the result, as the promises they had received and as canvasses they had made led the leaders of the cause to believe that they were surely going to win.

Mrs. Milna Van Winkle, president of the Woman's Political Union, declared that the reports she had received during the day from her watchers indicated that wholesale frauds had been perpetrated.

"We were fighting against every trick in the election business," declared Mrs. Van Winkle. "The men were experienced. They could commit frauds under the noses of our watchers and the inexperienced women were unable to understand."

Before midnight, Mrs. Lillian F. Feickert, president of the New Jersey State Association for Woman Suffrage, conceded defeat. The early returns indicated, however, that the amendment which would bar from contest for five years any defeated amendment to the state constitution, met the same decisive defeat as did suffrage.

The leaders of the defeated cause will take immediate steps to contest the result in the courts. They will base their protest on the fact that the ballots were not numbered and on the charges that wholesale frauds were perpetrated as a result.

CENTRAL LABOR COUNCIL FAVORS NONPARTISANSHIP

The Register is in receipt of the following from Lon W. Butler, member of the Executive Board of the State Central Labor Council:

The State Federation of Labor, at its annual convention at Santa Rosa, unanimously endorsed the Direct Primary Laws (numbers 1 and 2 on the ballot) and the Revision of Taxation (number 9 on the ballot).

The adoption of a just and equitable system of taxation is of tremendous interest to the workmen and workwomen of California, and the enclosed articles from The Union of San Jose and The Citizen of Los Angeles emphasize the importance of voting "Yes" on Number 9 on the ballot.

Enclosed are several leaflets on the subject which it is hoped you can put to good use.

FOURTEEN KILLED BY POWDER BLAST

BUTTE, Mont., Oct. 20.—Fourteen men were killed at the Granite Mountain mine of the North Butte Mining Company yesterday by an explosion of 500 pounds of giant powder. Eleven bodies have been recovered. Eight other men, all working at the surface, were seriously injured.

Three top men were engaged early yesterday afternoon in lowering powder to the 2800-foot level. One car, containing about five hundred pounds of giant powder, was at the collar of the shaft waiting to be lowered, after which a number of bosses and miners were to go below. Five of the men were waiting in the "dog house," a small room near the shaft, when the explosion occurred.

The blast swept away the frame structure in which the men were waiting at the shaft together with the airshaft beside the steel gallowas frame. Two painters were at work on this airshaft at the time of the explosion. Neither was killed but both were injured. Many of the bodies were in fragments.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative. No gripping or the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action. If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them, 10c and 25c per box. All druggists. The Olive Tablet Company, Columbus, O.

SEAL BEACH'S INCORPORATION GOES 84 TO 14

Big Crowd Celebrates Victory With Banquet, Speeches and Fireworks

By a vote of 84 for to 14 against, incorporation was carried at Seal Beach yesterday, and within a short time that community will be a regularly organized municipality of the sixth class.

The incorporationists not only carried incorporation, but they also elected their ticket for city officials.

The vote for city officials follows: City Trustees (the first five named being elected)—James H. Blagge, 78; H. J. Eichhorn, 71; C. A. Little, 79; H. G. Magee, 76; J. C. Ord, 98; F. E. Patterson, 18; M. L. Russell, 20; R. D. Richards, 18. City clerk—A. L. Havens, 75; W. F. Stevens, 19. City treasurer—M. H. Snow, 80; J. E. Herbst, 19.

There were 112 votes cast out of a possible 127. Practically every available vote was gotten out. Illness and absence accounted for the fifteen voters who did not reach the polls.

Those who favored incorporation were so certain that they were going to win that they prepared a great feast and fireworks.

The banquet was served at the pavilion—and Seal Beach has a splendid

THE BEST BREAKFAST

Convenient, Satisfying, Beneficial

Early in the morning, the vitality of the human body is at the lowest ebb. This condition is reflected in the digestive organs, making it highly desirable that the breakfast should be composed of light but nutritious foods. To a general appreciation of this fact is due the tremendous and constantly increasing demand for ready-prepared or partially-prepared breakfast foods all over the civilized world.

Among all these foods, none could possibly be better than that wonderful product known as H-O Oatmeal. Made of carefully-selected white oats, steam-cooked for more than two hours before it leaves the mill, and prepared by the special H-O process, it represents the best-balanced food that is possible to obtain for young and old alike.

Not only is H-O Oatmeal a nutritious and strengthening article of diet, but it is a most delicious food as well, when properly prepared. Grown folks relish it, while children thrive upon it and call for more.

You owe it to your family to select judiciously the food they eat. Make H-O Oatmeal a regular article of diet for a few weeks, and you will be most highly gratified by the results. H-O Oatmeal comes in air-tight, moisture-proof packages, and can be obtained at all good grocers. Try it today.—Advertisement.

pavilion. It was a banquet fitting the beach. Clam chowder, mussel salad, oyster cocktail, fried fish, baked fish—it was a fish dinner of a lifetime. Everybody had a good time, and the everybody numbered over 350. The people were happy and the visitors, which included a large representation of county officers and newspaper men from Santa Ana, enjoyed the affair immensely.

Following the splendid supper, R. B. Armstrong, a real estate man and whose chief delight in life it to boost Seal Beach, introduced Chairman May of the banquet committee as the toastmaster.

"Seal Beach—The Past" was the subject given J. C. Ord, who got the highest vote for city trustee and who is slated for chairman of the city board.

Ord's speech was an original exposition of the growth of Seal Beach. He claimed its discovery, for over eleven years ago he moved to the place when it was infested with cottontails, jackrabbits, skunks and squirrels.

"Seal Beach—The Present" was the subject of an able, inspiring address by R. B. Armstrong. Some of the advantages of the enterprising city were dwelt upon in a clear, forceful manner.

"Seal Beach—The Future" was the subject given by R. Z. Adams, who is connected with the realty department of the R. B. Armstrong Company, which sells property at Seal Beach.

"This is going to be an imperial city," declared Adams. "By 1920 this splendid resort with its shimmering sea and glorious opportunities for seashore life is going to be a city of 20,000."

Then came calls for P. A. Stanton, founder of Seal Beach. Stanton's good-natured rejoinders and remarks took the audience along with him into a serious discourse upon the enterprise of the city in getting itself into shape through incorporation to give its people fire protection, health protection, better streets and other civic advantages.

"The Bayside Land Company has already put \$500,000 into its properties here and in improvements for Seal Beach," said he, "and it is ready to put in \$500,000 or a \$1,000,000 more to help bring this place into its own rightful position in Southern California."

Stanton gave considerable credit to the growth of the beach cities along the Orange county coast to the South Coast organization of those cities. Instead of pulling against each other, the communities are now pulling together for the mutual benefit of all.

Assemblyman J. C. Burke of Santa Ana, who has been attorney for the boosters for Seal Beach in their incorporation fight, delivered an entertaining and optimistic address, and the banquetters adjourned to the outside of the building to see a beautiful display of fireworks on the pier and for the taking of moving pictures around the bonfires.

Seal Beach started its life as a municipality with a burst of good cheer and hospitality.

MISS HELEN BEATRICE COOPER

Who is Now Connected With the Orange County Conservatory of Music.

Miss Cooper has, through her persistent application of the highest musical ideals, earned the respect of critics in Europe, as well as in the United States.

Miss Cooper's training has been most thorough; besides studying a number of years with teachers in this country, she spent three years in Europe under eminent teachers there. Most of this time was spent in Germany, so naturally she took up the study of German with the view of specializing for German Lieder and opera.

Miss Cooper has had experience in church work, oratorio, concert and opera. Therefore it would seem that such a large and broad repertoire will be very beneficial in teaching. However, Miss Cooper's specialty is voice placing.

She strives to give a pupil a proper ideal of a pure and resonant vocal tone, and to develop the ability to produce such a tone; then later, to develop and extend the range of voice.

One of Miss Cooper's present pupils in Santa Ana says that the feature which stands out most in her teaching of voice placing is this:

There is reason for every step that is given, and this reason is analyzed and explained to the student.

The Conservatory considers itself fortunate, indeed, to have this competent and experienced artist to take charge of the voice department, and it feels confident that Santa Ana will recognize Miss Cooper's exceptional ability.

Below are two short newspaper comments of some of Miss Cooper's concert work, one from a Berlin paper, the other from the Los Angeles Tribune:

Miss Cooper's beautiful voice and singing aroused much general comment and evoked warmest applause. The Continental Times, Berlin, Germany.

The wonderful thing about Miss Cooper's voice is that it never changes quality. In climbing the mountains of melody she finds no timber line. It is a voice which does not speak of method, placement, displacement, breathing or any other branch of technique, for it is just an easy, natural voice from which song flows as easily as thisle down.—The Tribune, Los Angeles.

HERE'S NATURE'S OWN REMEDY FOR CATARRH

Hyomei Relieves Catarrh Without the Use of Dangerous Drugs

Not until Hyomei was discovered has it been possible to truthfully say that a real remedy for catarrh was known.

Hyomei is an oil and its air is breathed through a small inhaler furnished with it for a few minutes four times a day, and during that time every particle of this Hyomei-laden air taken into the air passages and lungs is impregnated with a powerful germ-killing and health-giving antiseptic.

Sprays and lotions often cause disorders of the respiratory tracts or bring on some other diseases and never make a permanent cure of catarrh. But when the air of Hyomei penetrates to the inmost air cells of the lungs and enters the blood with the oxygen it not only kills the germs in the throat and nose, but kills the bacilli in the blood, freeing the mucous membranes from poisonous microbes and giving perfect health.

A complete outfit is inexpensive and includes an inhaler, dropper and sufficient Hyomei for several weeks' treatment.

Rowley Drug Co. have so much faith in the merit of Hyomei that they agree to return the money to any purchaser who is not thoroughly satisfied.—Advertisement.

PEASANT GENERAL NOW AT HEAD OF RUSSIAN ARMIES

LONDON, Sept. 14 (By Mail).—The real inspiration of the latest Russian military shakeup is General Alexieff—a peasant. This, too, in autocratic Russia.

Relocation of Grand Duke Nicholas to the Caucasus and substitution of the Czar as commander-in-chief can only mean, according to authentic military information, that the real commander-in-chief is Alexieff.

General Alexieff replaced General Russki a few months ago; he has now replaced Grand Duke Nicholas, and as chief of staff today is the most listened-to military man in Russia. The Czar will listen and the Czar's military moves can be put down as Alexieff's, declares gossip from London military experts.

The new chief of staff comes from peasant parentage and is one of the few Russian military leaders who made his debut into the world in humble circumstances. He was born in 1843. His mother was an Armenian, his father a Russian, and for many years estate manager for Count Modvino, who took a kindly interest in the small son of his manager and persuaded him to attend the naval school at St. Petersburg.

Alexieff's promotion was rapid. He was made captain in command of a ship that made its first voyage to America. One of his most noted moves in the Russian navy was reforms against the use of liquor by sailors. Later he left the navy and entered the army, where his executive ability and quick thinking qualities started him on the road that ended

COMING TO OUR SENSES

A hopeful sign of the times is the attitude of the Democratic national party and administration towards the tariff, as indicated by the outline of the administration's legislative program just made public. Particularly pleasing to men of all parties must be the announcement of the proposal to repeal the law placing sugar on the free list next year.

More and more the biggest and best men of all factions and all parties and all sections of the country are coming to recognize and admit and act upon the fact that the tariff is a scientific economic question and not a matter of all. Indeed, it becomes rapidly more apparent—clearly and unquestionably so—that the tariff must be taken out of politics.

The concessions made and making by the Democrats toward that end is a long step in the right direction. Republicans long ago admitted the necessity of a revision downward; and now the Democrats, having overreached themselves in striving for the old party ideal of free trade, gracefully acknowledge their error and seek its correction.

THE ARMENIAN

The reported massacre of half the Armenian race will seem a peculiarly pathetic tragedy to all who have seen that race in this country. No very large number—some 30,000 by the last census—have come to the United States. A passionate attachment seems to hold them to their hereditary and blood-stained soil.

They are called the brightest race of Western Asia; industrious, energetic, intelligent. A less virile people would have been submerged by the sufferings they have met, in the face of which they have retained their national identity 3000 years.

In America they are eager for education. Their restless faces are a striking contrast to the slow Slavic types that have become so common.

The majority of recent aliens seem to segregate themselves in colonies of their own people. It is for them the easiest way. The learning of a new language seems impossible. In a little Poland or Hungary of their own, they speak the tongue of the fathers and are connected with American life only by their jobs. Fortunately, their children attend school and become Americanized.

The Armenian is much more likely to attach himself to some native American group in his effort to live an American kind of life. A considerable number of their educated men have become pastors of American churches, so easily do they adapt themselves. The children are said often to avoid play with the children of the neighborhood, preferring to hang around the stores where their fathers work. Already they are trying to learn about business.

Like all newly freed peoples without much experience of life and thought, they sometimes run to unbalanced extremes. They would probably show an undue proportion of Socialists. It is natural enough that they should dislike the modern order that has permitted the massacres of their native land. But if the race as a whole could be put through our schools, they would add strong elements of energy and alertness to our composite type.

Psychology of Clothes

"It's not to be wondered at that you women are beyond our comprehension. Look at that girl coming toward us," said a mere man, indicating a girl in a short skirt, slouch hat, with wind tossed hair, her face tanned by the sun. She was a fascinating picture as she passed us with a laughing glance. "The last time I saw that girl on Fifth Avenue in New York," he continued, "she was dressed in a smart tailor made suit and hat, with beautiful fur, and she was absolutely plain. I would not have looked at her twice, now she's simply beautiful in those old clothes."

"Well," replied the woman, "there is one thing you must learn about our sex, and that is that a girl cannot be a touring car, a limousine and a runabout all combined. She can only be one at a time. That's where you men are different from us, clothes and environment don't change you as they do women. Women are not equally attractive in all settings. If we are brilliant and beautiful in the ball room, we are apt to be disappointing to mere men in sporting costume. If you fall in love with us in smart tailor made costume, the ball room setting will often be a disillusionment to you."

"That may all be true," replied mere man, a troubled look passing over his face, "but what I can't understand is that you not only change in looks, but your clothes seem to change you in every way."

"Oh," the woman laughingly replied, "woman lives up to her clothes. A negligee sometimes unlocks a woman's

soul, and often surprises even herself. Why, clothes make the woman, her mind, her mood, even her facial expression changes as naturally with her clothes as the face of nature changes with the clouds. A man's a man in spite of his clothes. It's only the dress suit that temporarily puts a veneer on a man; that unconsciously makes him try to live up to what is expected of him in a social way, makes him artificial, as it were, for the time being. That's the reason the majority of American men seek a place in the summer time where dress suits are not required."

"But," said mere man, "do you women enjoy that sort of thing. Isn't it rather a bore, changing about like that?"

"Oh, no," she replied, "think what a variety you get out of life if you only have the price. Think of how many roles you can play in life. It can never be monotonous. It may make you men a bit tired trying to change the scene, from the 'Summer Girl' to 'Lady Vere de Vere,' or the 'Hail Fellow Well Met,' in sporting parlance, but mere man has missed much in life when he cannot feel the exhilaration of a new becoming gown and hat, or the thrill of excitement that goes with a beautiful new ball gown. It is a psychological something that could never be explained."

WHY CERTAIN BIG NEWSPAPERS
OPPOSE NON-PARTISANSHIP

Editor Register:—That the rank and file of the Republican party may not be deceived and misled into voting against the non-partisanship amendments (appearing on the ballot as numbers 1 and 2) through the opposition to those measures of such papers as the Los Angeles Times, it would be well to consider the real motive behind such opposition. The motive is well expressed in a few sentences from a lengthy editorial appearing in the Oakland Enquirer. Among other things the editorial says:

"The San Francisco Chronicle would oppose anything and everything proposed or advocated by Governor Johnson, because the latter has several times taken the hide off General de Young, that paper's proprietor. The Los Angeles Times throws a series of fits every time it thinks of the Governor, and would refuse to support even a universal open shop measure, if the Governor advocated it, because the latter has verbally scalped General Otis so often that he is permanently politically baldheaded, and, therefore, violently afflicted with Johnsonophobia. The San Diego Union, Commodore Spreckel's paper, sees red every time it looks at a capital J, because that letter reminds it of the surname of California's governor, who has inflicted

ed many and deep verbal wounds on the Union's proprietor. The Union, therefore, wouldn't support any measure proposed by Governor Johnson—not even to make Spreckels United States senator. The San Francisco Argonaut and the Oakland Tribune, both edited by Mr. Holman, are, of course, violently anti-Johnson because Mr. Holman on divers and sundry occasions. Several other editors have it in for the Governor for similar reasons, and, therefore, jump joyously and with all their feet on everything he favors."

The Oakland Enquirer has been an advocate of non-partisanship in the election of state officers, since the last state election in 1912 and has had its influence in bringing about the submission of said amendments to the people, but lately, and for some mysterious reason, the Enquirer has taken the peculiar attitude of still favoring non-partisanship in state offices, but opposing the writing of such a law into the statute books; in other words, that it believes in voluntary non-partisanship, but not in involuntary non-partisanship.

Some of the readers of the Enquirer are wondering how far it would go in its policy of voluntary and involuntary activities in state affairs.

THE NEXT BEST THING TO THE PINE FOREST FOR COLDS is Dr. Bell's Pine-Tar-Honey which goes to the very root of cold troubles. It clears the throat and gives relief from that clogged and stuffed feeling. The pines have ever been the friend of man in driving away colds. Moreover, the pine-honey qualities are peculiarly effective in fighting children's colds. Remember that a cold broken at the start greatly removes the possibility of complications. 25c.

Santa Ana, Oct. 19, 1915.

Editor Register: I ask space in
your newspaper to refer to a matter
which concerns every taxpayer in
Orange county, and it goes without
saying that the larger the taxpayer
the more he should be interested.

Five gentlemen, all of whom are
residents of this county, have been
appointed to collect information
touching the proposed improvement
of Newport harbor; the possibility of
making such improvement, its prob-
able cost, and all other information
to be had, from official and unofficial
sources.

This plan to make a harbor at
Newport is one which, no doubt, re-
garded by many excellent people as
perfectly feasible and in all respects
laudable. On the other hand, many
regard it as being as chimerical as
any that ever saw the light, even in
the unlamented days of the "boom"
when any one of us with sufficient
imaginative powers could be and was
"a millionaire for a day."

To return to the appointment of the
commission before referred to: I ap-
prehend that the great majority of
the people of Orange county believe
that the duties of gentlemen compos-
ing this commission were to be as
follows:

To make full and detailed inquiry
as to the possibility of so improving
and developing Newport bay as to
make it a safe and practicable harbor.
Having ascertained the facts, all
of them, the commission was sup-
posed to report to the people of Orange
county, in order that they might if
they should deem it wise finance
the work in whole or in part, presum-
ably by voting bonds for that purpose.

This, I submit, in all fairness, is a
just summing up of the why and
wherefore of the existence of this
commission and I further submit that
it seems most incongruous, in view
of the facts, for the chairman of that
commission to appear, as he did, at a
meeting of the Orange County Fed-
eration of Women's Clubs, held at La
Habra on October 9 in the capacity
of a "booster" for the proposed har-
bor. Mr. Shaw, we are told, was armed
with maps, etc. et cetera, and invited
questions from any and all concerned.

POMONA CHARITIES

Miss Redding, Sister City Superintendent, Spoke Before Local Board

A meeting of the Associated Charities was held last evening at the home of Dr. Waffle to listen to a talk by Miss Redding, the superintendent of the Associated Charities of Pomona. Miss Redding is a lady of very pleasing personality, a trained social worker, and enthusiastic in her work. She received her training at the Chicago School of Philanthropy and for several years prior to coming to Pomona was in charge of the Associated Charities at Frankfort, Ky.

Pomona is a city of about the size of Santa Ana and the Associated Charities at that place was started in January of the present year, with Miss Redding as superintendent. Miss Redding in a very interesting way told how the organization was formed and explained the methods and lines of work. A board of twenty-four directors was appointed by the city council. This board was made up of representatives of the various charitable and relief-giving agencies, churches, lodges and social bodies of Pomona. In this way a genuine co-operation was secured through the Associated Charities as a central organization. A house-to-house canvass was made to secure the necessary funds. Fifteen hundred dollars was raised in this way, and in addition to this the city council appropriates monthly the sum of fifty dollars in support of the work.

Miss Redding described the various branches of her work and general methods of procedure in taking care of cases of need. An important activity is a free employment agency. The first aim is to ascertain by careful investigation just what the applicant needs, and accurate and complete records are kept in the office of every case. The ultimate aim of all charitable endeavor is to put the person or family back into normal self-support, where this is possible. In the meantime, emergency relief is given to tide them over until they are restored to self-supporting independence. The work of Associated Charities is to give "first aid," then to find out what the cause of the trouble is, and then by an intelligent understanding of the case, to put the applicant back on his feet.

Miss Redding emphasized co-operation on the part of all agencies in the city as absolutely essential to the successful handling of charitable relief. It is not the purpose of the Associated Charities to displace these other agencies, but to act as an intermediary and clearing house of information and united action.

The directors of the Associated Charities, and the representatives of other organizations who were invited to be present last evening, were greatly delighted with Miss Redding's interesting talk, and at the close a rising vote of thanks was extended to her for the very illuminating discussion of this important field of labor.

Do You Want Help?

In the employment of the department of the Associated Charities there are several women who wish work by the day. Several would like sewing and one practical nurse is registered.

TWO CLUBS MEET

Mrs. F. B. Case and Mrs. W. H. Malone Hostesses Yesterday For Bridge Clubs

Mrs. F. B. Case was hostess yesterday afternoon to the auction bridge club of which she is a member, at her home on South Broadway, three tables being occupied by interested players. The varicolored zenia was attractively arranged in brown baskets throughout the bungalow.

Guests of the club were Mrs. George S. Briggs, Miss Katherine Edwards, Mrs. John McFadden and Mrs. W. H. Malone.

At the conclusion of the games, Mrs. F. B. Case was awarded the first prize and Mrs. Briggs the second. Dainty refreshments were then served and a social period enjoyed.

In the evening Mr. and Mrs. W. H. Malone entertained the Young Married People's Club, which plays the same game, using four tables. Mr. and Mrs. Edward McWilliams were the fortunate holders of high score and took the trophy. Guests of the club were Mr. and Mrs. Dick Wilson.

Delicious refreshments were served upon the card tables before the club adjourned.

County Sealer Surprised
County Sealer of Weights and Measures and City Councilman from the Fourth Ward George McPhee had a birthday yesterday and as a consequence was the "victim" of a jolly surprise in the way of a birthday dinner planned by his wife and his daughter-in-law, Mrs. Barry McPhee, at the cosy new home of the latter.

At the time set for the dinner, W. L. Deimling called at the McPhee home on West Fifth street to take the councilman to see some lights and then expressed a wish to see his son's new home. When they arrived, all preparations were made and the company assembled.

The much-surprised gentleman quickly recovered and entered into the fun. Besides Mr. and Mrs. McPhee, there were present Mr. and Mrs. W. L. Deimling, Mr. and Mrs. W. L. Grubb and Miss Mary Joe Grubb, Mr. and Mrs. Barry McPhee and little daughter, Joy, Miss Muriel McPhee and Ross McPhee.

The table was made attractive with a pink and white rose centerpiece and a beautiful birthday cake. The living room was made bright with brown marigolds in all their velvety beauty.

Mr. McPhee was made happy by a box of five cigars from Mr. Deimling and Mr. Grubb, having been on a hunting expedition, contributed this morning's breakfast for the honored gentleman in the shape of six plump quail nicely dressed and embellished with pink roses.

The evening was passed pleasantly with social conversation.

Lincoln Association to Meet
The Parent-Teacher Association of Lincoln school will meet Thursday afternoon at 3:15 o'clock.

All the mothers are urged to be present, as the meeting will be held in the new open-air play room.

To Honor Colorado Friend
Miss Julia Brockert was hostess at a charming little dinner last evening at her cozy apartment on West Fifth street, in compliment to her friend and guest, Miss Love Buttrick, of Fort Collins, Colo.

The prettily-appointed table was centered with lovely yellow roses and covers were laid for the hostess and honoree, Misses Zoe Glidden, Nell Sumner, Edna Brown, Beth Phillips and Grace Whitely.

The evening was pleasantly spent by the party at the concert of the colored jubilee singers at the First Presbyterian church.

This evening Miss Brockert will again entertain for her guest with a 6:30 o'clock dinner at the Country Club, selecting a pink and white color scheme, the table to be centered

The Amphion Circle will meet for an all-day meeting Thursday at the Congregational church. A surprise luncheon will be a feature.

Fifth Street P.T. Association

One of the best meetings in the history of this small but remarkably energetic Parent-Teacher Association was held yesterday afternoon in Miss Sweet's room of the Fifth street school, fourteen mothers being a good representation of the fifty children enrolled in the school.

The room in which the meeting was held was made very bright and attractive with chrysanthemums and roses.

Prof. Deaver of the high school faculty, gave a most inspiring and interesting talk on a supervised playground for boys of high school age. Mr. Deaver made the point that the boy should be made physically strong as well as mentally proficient, so that he may carry on the work which he has been fitted to do.

Mrs. F. H. McElree held the interest of her hearers in her talk on "The Boy." She held out the boy should be taught to be neat, to keep order in the home, to know his place there and his responsibility towards his parents, and sisters and brothers. He should, above all things, be taught to be honorable, truthful and upright.

An animated discussion on the public playgrounds proposition followed, after which a vote was taken and of the fourteen mothers present, only one voted in favor of the playground, it being the consensus of opinion that the children should be at home when not in school.

A social hour was then enjoyed and light refreshments served and so interesting proved the meeting that the shades of evening had begun to fall when the association adjourned.

Woman's Club Meeting

The woman's Club met yesterday afternoon at the home of Mrs. Annie Gale. The president, Mrs. Tople, being in San Francisco attending the Grand Chapter, O. E. S., and as the vice president was also absent, Mrs. F. A. Marks was elected to preside over the business session, which she did in her most charming manner.

Roll call was made interesting by the ladies giving "Short Cuts" in their work. Many new and useful ideas were given as to how one might do one's work well without consuming so much time as was done in former years.

Mrs. Flora M. Pyle was chosen as delegate to attend the district convention at El Centro, November 9 to 12, with Mrs. Christina A. Young as alternate.

The resolution to restore poll tax, passed upon by the Orange County Federation of Women's Clubs at La Habra, was enthusiastically endorsed by the Woman's Club.

Mrs. Pyle gave a five-minute talk on "Amendments to the Constitution" and "Referendum Measures" to be voted on at the coming election, October 26. It is to be regretted that more of the ladies were not present to hear this instructive talk.

"Efficiency in Housekeeping" was the subject of a most excellent paper read by Mrs. R. H. English. An informal discussion followed, which brought many interesting thoughts.

P. T. For Mexican Mothers
A meeting was held yesterday afternoon at the kindergarten room of Roosevelt school for the purpose of arranging a branch Parent Teachers association for the Mexican mothers.

Mrs. P. Van Doren, president, and Mrs. S. H. Finley, secretary, were in their respective chairs and Mrs. F. H. McElree was present to assist in the organization.

A brief program was rendered. Alexandria Rodriguez played a piano solo and a number of children from Mrs. Bohannon's room sang several pretty songs.

An election of officers resulted as follows: Mrs. O. Rodriguez, president; Mrs. A. C. Gonzales, vice-president, and Mrs. J. L. Weaver, secretary.

The meetings will be held the third Tuesday in each month.

Mrs. Langford is the elder daughter of Judge and Mrs. West.

A DIRECTORATE NOW SELECTED

Branch of Home Investment Association of Redlands Has Been Organized

HUNTINGTON BEACH, Oct. 19.—The Huntington Beach branch of the Home Investment Association of Redlands has been formally launched with thirty-eight charter members as stockholders subscribing for a total of 396 shares. Charles H. Howard is president of the board of directors and W. D. Seely is secretary. Other members of the board of directors are W. T. Newland, T. B. Talbert, James J. Conrad, W. E. Tarbox, D. W. Huston, Carl Olson, C. E. Laverling, T. B. Talbert, I. C. Warner, E. E. French and H. T. Sundbye were elected as the loan committee.

Great advantages are expected to accrue to this city from this organization as there is a great demand for capital here for the construction of permanent improvements. Not only will the payments made by the local members be available for this purpose but a considerable share of the Redlands capital will be available as there is not such a great demand in that city for building purposes at the present time.

S. L. Redland, field manager of the Redlands corporation, is mainly responsible for bringing about this organization and presided at the meeting for organization. J. Warren Smith, secretary of the Redlands organization was present and addressed the meeting.

With a building and loan association and a title company of its own Huntington Beach is taking a prominent position in financial affairs in the county.

has announced that it will begin at once the filling of the artificial lake in Lake Park. This lake, which is something the shape of a fish, has appeared on the maps of Huntington Beach almost from time immemorial but the oldest inhabitant has no recollection of seeing it filled except in the middle of the rainy season.

The lake covers an extensive area and will be filled by the company from the city water system through a two-inch water pipe. No estimate is made of the probable length of time required to complete the filling of the lake nor of the number of mosquitoes that can be raised to the square yard of water surface. But at any rate the lake is to be filled.

Another Delay

Owing to an oversight on the part of some one, it is not just certain whom, the resolution for the improvement of Main street was not ready for the last meeting of the city trustees and consequently the first publication did not begin in the last issue of the local paper. Probably no improvement ever planned in any city had more misfortunes before work actually began than has this proposed improvement of Main street. The history of the various delays would be too long to give in detail, but for over two years no permanent improvements have been made on the street because of the common expectation that the work of paving would begin in a very short time. The result is that the street has become almost absolutely impassable and no one uses it who is not compelled by necessity to do so. However, the time for protesting against the improvement has passed and it is now hoped that it will be under way.

For Better Gas

For the purpose of securing to the city a better gas service the city trustees have taken the first preliminary steps to call an election for a bond issue to install a gas distributing system or to take over the system of the West Coast Gas Company.

The city attorney has been instructed to have the resolution ready for the next meeting of the city trustees. It is estimated that a system could be put in for \$15,000 equal to or better than the system which the company has installed and it is expected that the Southern Counties Gas Company will pipe the gas to the city limits if the city authorizes the establishment of a city system.

The city trustees have also passed a resolution of intention providing for lateral sewers in the alley between Fourteenth and Fifteenth streets.

Hospital for Beach

The ten-room house at the corner of Sixteenth and Olive streets, belonging to W. S. Killinger and until recently occupied by W. S. Hill and family, has been leased for purposes of a hospital by Misses Stella M. Fowler and Martha Peters. Miss Fowler is recently from Chicago and has been nursing for local physicians. The house will be fitted up with all the modern conveniences for the purpose and will have an operating room. Ten patients can be accommodated at one time.

for such an institution has seemed quite plain for some time and the institution will doubtless have a considerable patronage.

Lewis Bingle has bought two lots near Main street on Tenth and expects to build a cottage for himself on the property.

PALISADES TAVERN TO RUN ALL WINTER

At the last week-end gathering at the Palisades Tavern down on the Balboa Palisades overlooking beautiful Newport Bay, plans were talked for a big gathering over the Thanksgiving holidays and a genuine old-fashioned celebration.

Details were not worked out at all but several couples present agreed and were anxious to have something of the sort and the management said that they would work out the details and have some announcement in the next few days as to what the attractions would be and how the people would be entertained, but it was agreed that the big time would probably last for four days. It was also announced by the management that the Tavern is to be open during the winter, in fact it is to be a permanent all-year-round hotel.

Among the guests were Mr. and Mrs. C. E. Winchell and daughter, Judge and Mrs. Lewis R. Works, Mr. and Mrs. C. R. Ramsey, Capt. and Mrs. Symondson, Mr. and Mrs. E. R. Murphy, and Mr. and Mrs. Frank Ryan of Los Angeles; Mr. and Mrs. J. G. Reikhard, Mr. and Mrs. F. J. Loomis of Pasadena.

Changes Are to Be Made Soon In County Forestry Department

Yesterday afternoon following a meeting of the Board of Forestry and a conference of that board with the Board of Supervisors, it was decided to make a change in the management of the forestry department commencing with the first of next month. When County Forester J. M. Grant was appointed forester he was given preference at a good salary for the reason that the forestry board had to have a man to raise nursery stock for planting on the highways. Now that the nursery stock has been raised, it is believed that the department can be run for less money. Since the special work for which Grant was employed has been accomplished, it was decided that an executive head could be secured at less cost to the county. Grant's connection with the department will cease at the end of this month.

Recently accusations were made against Grant that were investigated by a committee of the forestry board, which committee brought in a report favorable to Grant.

Owing to the fact that some of the members of the forestry board and supervisory board had to leave yesterday, the question of the control of the courthouse grounds was not taken up. Both boards will meet again Nov. 2.

LOS ANGELES PRODUCE MARKET

As a result of a decided reaction in the New York sugar market local dealers raised their prices yesterday for all grades of the sweet staple 25 cents a hundred pounds. Under the amended quotations beet granulated now sells for \$5.80 a hundredweight, and standard cane and berry at \$6.00. This sharp advance in what has been for several months a weak and unsteady market is attributed to a decreased heavy export demand and a feeling of increased confidence on the part of the beet sugar interests in the domestic situation. England and France have both placed large orders recently in New York for sugar and from all reports these orders are liable to be duplicated a number of times before the winter is over. Although an advance has been expected, Los Angeles wholesalers did not anticipate so quick a change.

All varieties of berries have increased in value lately. Strawberries and blackberries are more expensive at 8 to 10 cents a basket and raspberries are selling on the market yesterday at 13 cents a basket for the poorest stock.

TO TEST SEINE LAW BY TAKING AN APPEAL

Newport Justice Finds Shaffer
Guilty—Another Com-
plaint For Smith

The first appearance in court of the case that is meant to test the new state law prohibiting the use of a seine within 750 feet of a wharf was at Newport Beach this morning when R. J. Shaffer, a fisherman, was found guilty of breaking that law.

Shaffer was arrested by Deputy Fish and Game Commissioner Prichard of Los Angeles by an arrangement under which Prichard was present when Shaffer took his seine out. Justice Goepfer of Newport Beach found Shaffer guilty and fined him \$10, which Shaffer did not pay.

Attorney Duke and District Attorney West were present in the trial today, representing the state. Duke is the state commission's attorney. Attorneys Clyde Bishop and J. C. Burke appeared for Shaffer.

The case will probably go to the

TRAWL NET IS CUT TO PIECES

Order of Court For Disposal
Of Exhibit Carried Out
By Game Warden

This morning Game Warden Addison took a sharp knife and cut a trawl net to pieces. The net was one that was captured in the arrest of George Romans of San Pedro on March 29 for dragging a net through the Orange county coast. It was used as an exhibit in the case, which ended in the heavy fine of Romans.

The authorities did not want to return the net to Romans. In order to accomplish the destruction of the net an unusual action was brought. It was entitled "F. M. Newbert, M. J. Connell and Carl Westerfield vs. Trawl net." The trawl net made no answer to the action, and default judgment was entered ordering the execution of the defendant. The game warden carried out the order.

Witness Is Gone
When the time came for the trial of Francisco Arrellano this morning, a continuance was found necessary as the complaining witness, Ed Morris, was not in court. The sheriff's office had been unable to locate Morris. The last heard of him he was starting for San Pedro. Morris had the man arrested on a charge of robbing him of \$7 at the Arcade rooming house.

Jury Disagrees
Standing ten for conviction and two for acquittal, a jury that heard the evidence in the case of Ignacio Blanco, charged with burglarizing J. V. Richardson's store at Stanton last April, was discharged last night. Immediately the case was reset for trial for tomorrow. The reason for the early re-trial was that one of the witnesses is Castulo Medrano, brought here from San Quentin. Medrano testified that Blanco was in the burglary, in which Medrano admits he was concerned. Another witness was Harry Caravantes, who is serving a term in the county jail for gambling at Los Alamitos. He testified that he shaved Blanco at a barber shop at Los Alamitos about the time of the burglary, at which time Blanco says he was in Los Angeles. Evidently two of the jurors concluded not to convict Blanco on the testimony of a convict and a county prisoner.

For Guardianship
Severin A. Hanson has asked that J. H. Barton be appointed guardian of the estate of Emily Hanson, an alleged incompetent. Stewart & Stewart of Los Angeles represent the petitioner. It is stated in the petition that Emily Hanson has an interest with others in seven acres of land that it is proposed to lease for oil drilling, but that her mind is in such a condition that she will take no action in the matter, to the detriment of others who are interested. It is said that she says she has divine guidance.

Anna G. Shelton has asked that she be appointed guardian of Regina I. Shelton that she may receive her share of the estate of George E. Shelton. Williams & Rutan are attorneys for the petitioner.

COMMITTEE FAVORS ONE-LIGHT SYSTEM

The Chamber of Commerce committee on ornamental street lights made a trip to Pasadena last night to inspect the ornamental lights in use in that city. In the party were Col. H. S. Finley, W. F. Lutz, R. L. Bisby, H. T. Rutherford and Mr. Paine. They were accompanied by representatives of the company exploiting the light which was to be inspected.

The particular purpose of the trip was to see a one-light system. Pasadena is now installing ornamental lights of this character instead of clusters used heretofore. The committee was much impressed with the service given by the lights seen. The members of the committee are of the opinion that the one-light system is decidedly superior to the cluster system.

After making a complete investigation of the question the committee will report to the city trustees its findings and recommendations.

'FAT AND SASSY' SAYS CRAVATH, ON RETURN

"Gavvy" Cravath, Orange county's great ball player, whose valiant work with the stick had much to do with carrying the Philadelphia National League Club to the pennant this year, passed through Santa Ana at noon today on his way to his home at Laguna Beach, where he will spend the winter.

Cravath stopped in Santa Ana only a short time, but managed to shake hands with a few of his old friends. He expressed himself as feeling "fat and sassy," and looked the part. According to his usual custom, Cravath was dumb as a clam so far as talking baseball was concerned. He said he was glad to get back home, and mentioned the improvements which he noted had been made in Santa Ana since he was last here. His first question was as to the shooting season here, and he was tickled to learn that the season opened earlier this year than last and would continue longer. He announced that the slaughter would begin at an early date, and would be prosecuted with zeal.

Some of Cravath's friends here are planning a little banquet in his honor for some time next week. Cravath promised today to be on hand.

PREPAREDNESS URGED BY SPEAKER CLARK

LONG BEACH, Oct. 20.—Earnestly advocating national preparedness for what he termed "an improbable but possible war," Speaker Champ Clark here last night said an army division could be raised in every congressional district if this country should become involved in war.

"Double the number of cadets at West Point and Annapolis," he said "then give every boy with the mental and physical qualities training at either of these schools at actual cost. The American people favor peace but not peace at any price. There are two classes of men in this country who operate to the detriment of the nation. One class of people in the United States is attempting to drag the nation into war and another class would not fight for any reason."

Clark declared that the \$300,000,000 paid by this government yearly to foreigners to carry our products across the seas should go to American vessels and to American labor.

Bigger Than Weather Patrick-Duluth Mackinaws

Patrick's are bigger-than-weather because they resist wind, cold and moisture.

The Patrick is the genuine mackinaw worn for years in the northwest by trappers, scouts, woodsmen and huntsmen.

The Patrick cloth is as distinctive to America as chevviots to Scotland and tweeds to England.

There is no coat just like a patrick and no cloth just like Patrick Cloth, because it is made by a special process, of a special wool.

Boys and girls enjoy the beautiful soft fleecy Patrick cloth, with its rich subdued coloring.

Young folks like the big, snugly collars and the manly smart style of these attractive garments.

Men Want Patrick Cloth Automobile Coats

Because they are wind proof, water proof, cold proof.

We Have Patrick's in All Colors and Patterns.

Mackinaws, \$6.00 to \$12.00.

Patrick Robes, \$7.50.
